

Today

Plain Murder a Bore.
Give Success a Chance.
Danger in Everything.
A Hint to Stalin.

—By Arthur Brisbane—
(Copyright, 1930)

BIG cities are becoming very blasé concerning murder. New York's police discover parts of a dismembered body in places miles apart, the torso floating in the river, legs lying in the street. The only cry is a laundry maid. Once a bit of a "Great Mystery," rivaling the famous Gypsy-supper case, or the "Lamp Black Swamp Mystery," which kept reporters waiting and imagining for weeks.

But mere individual murders cease to interest. In Chicago rough young huns enter a cabaret, one announcing: "This is a sick-up."

Prominent Winnipeg Newspaperman Dies

WINNIPEG, Man., Nov. 25.—Victor F. Payne, veteran Winnipeg newspaperman, and for many years editor of the Manitoba Free Press, died here yesterday morning. He had been ill only a week, being taken to hospital last Wednesday.

Railwaymen Seek Five-day Week

CHICAGO, Nov. 25.—The executive council of six railway shop craft unions affiliated with the American Federation of Labor last night adopted a program seeking a five-day week with no reduction in pay.

Operating brotherhoods that week suggested a six-hour day with no reduction in pay.

Wartime Potentialities of Peacetime Aircraft Disturbs Arms Conference

AIR PROWESS OF GERMANY REFERRED TO

Proposal for Annual Report on Number of Commercial Craft Carried

Associated Press
GENEVA, Nov. 25.—A discussion of the wartime potentialities of peacetime commercial aircraft, with pointed reference to the air, disturbed the calm of the preparatory disarmament commission Monday.

The discussion arose over a proposal to insert in the draft convention a provision for an annual report by the governments of the number of commercial planes and dirigibles in their territory. The proposal was finally adopted without a negative vote. The United States and Germany abstained.

Here, Messrs. French, director of the League of Nations, and other considered civil aviation the most important factor in offensive power, asserting civil aviation has been developing rapidly, and is clearly an effective direction of military aviation in a defensive direction.

He made reference to a huge German airplane which recently had been visiting European cities, and quoted a statement given by a newspaperman that the plane was capable of carrying heavy bombs on London, Paris, Brussels and other European capitals.

It was generally understood at first that Messrs. French had referred to the giant German flying boat, D-5, but it later was explained he probably meant a large German plane which recently completed a tour of the principal European cities. Count von Bernstorff, chief German delegate, replying said: "It is strange there should be so much interest in civil aviation when the commission has stated it has no desire to make publicity for war materials in Germany."

Count von Bernstorff, cannot agree to any disarmament treaty which deals with civil aircraft.

Hugh A. Gibson, United States representative, said while he was much impressed by the British and French arguments, he recognized the importance of the fears expressed, the United States would prefer that the question of commercial aircraft be dealt with on another occasion.

VIATORS

Continued from page one

men will reach the 15 mile circle, and ascertain the fate of Burke and his companions.

Wells late is about 120 miles east and south of here, and about 200 miles west and north of Lloyd River point.

Capt. Burke, who had been flying out of Alton since early summer, was last seen on October 11, shortly after leaving Lloyd point on a return trip to Alton. Frank Dorland, Alaska pilot on his way to Fairbanks, Alaska, from Wrangell, Washington, flew to Alton, and for two weeks engaged in an intensive search for Burke, but without success. He was joined later by Pilot Wasson. Dorland was forced to give up the search and continued on to Fairbanks, but Wasson has been flying over all sections of the country in his hunt for the missing men.

Yesterday his efforts were rewarded with the finding of the plane. He reported that Burke's plane must have made a forced landing in the stream, as the location is a most dangerous one for a voluntary landing. He saw no sign of life.

Always a Good Piano

Hear the music you want to hear, at the particular time that suits you! Ownership of a Mason & Risch makes that possible. In addition to always being ready, a piano has a refining influence on growing youth.

For half a century Mason & Risch Pianos have been a force for good. Learn from this 50-year-old house how easy it is for you to own the instrument of the cultured.

Easy terms on either new or used instruments. Liberal allowance on your present piano.

by the western premiers with Ottawa government heads.

WINNIPEG, Man., Nov. 25.—Appointment of a general manager for the Central Selling Agency of the Wheat Pool was discussed here Wednesday at the regular monthly meeting of the board of selling agency. It was announced here Monday that the appointment of such an appointment can come only from the board, it was pointed out.

Pool officials declined to mention what names will be under consideration at the meeting. The selling agency has been without a general manager since the resignation last year of E. B. Ramsey, following his appointment to the Board of Grain Commissioners.

Rumors during the past week have connected two prominent men with the vacant position, and the immediately denied that they had been offered the situation as head of the Wheat Pool's selling organization. Premier J. E. Brown of Alberta stated he had no knowledge of the position being offered him.

Monday night John T. McFarland, of Calgary, similarly denied his rumored appointment. The report in his case, Mr. McFarland said, was the result of "gossip."

TORONTO, Ont., Nov. 25.—With wheat prices at their present level, Canada's wheat crop can be disposed of without the aid of the Dominion Government, said Premier John Bracken of Manitoba in an interview Monday.

In the event of a drastic drop similar to that of a week ago, when wheat sagged to 50 cents a bushel at Winnipeg, serious consequences could only be averted by the intervention of the government at Ottawa, said Premier Bracken.

Mr. Bracken gave his impression of the Dominion Government's attitude on the wheat situation as that of "standing by," and he endeavored to reconsider the situation should another serious drop in prices occur.

WINNIPEG, Man., Nov. 25.—Board of the Central Selling Agency of the Canadian Wheat Pool meets Wednesday to consider the appointment of a general manager. The session is the regular monthly meeting of the nine-member board from the three prairie provinces, but the pool has announced that the general manager appointment will be an important question on the agenda.

Henry Wise Wood, Calgary; A. McPhail, Regina, and Colin H. Burnell, Winnipeg, are the three provincial pools will attend all sections of the country in his hunt for the missing men.

JOHN DUNN DIES
TORONTO, Ont., Nov. 25.—John Dunn, 70 years old, of the Toronto city council, died in his 64th year.

James Balfour Is Mayor Of Regina

CONTINUED FROM PAGE ONE

REGINA, Nov. 25.—Rolling up a majority nearly double the votes of the nearest of his three rivals, James Balfour, K.C., who served as Mayor of Regina in 1915, was returned as Mayor of Regina in Monday's election. Col. James McAta, mayor for four years, stood third on the list, according to returns early this morning, with Alderman W. W. Champ a few votes ahead of him.

J. D. Colwell, independent labor candidate and a member of the council for many years standing, headed the polls in the aldermanic vote.

CITY POLICE

CONTINUED FROM PAGE ONE

along the following lines: 1. The physical condition of the men and the amount of police training given to them. 2. Whether there was a proper efficiency in the force and co-operation and the officers and the men.

He declared he was convinced that Edmonton's first class constables were not first class and the city was getting its money for nothing. He expressed a hope that the city would have a better police force.

He did not think the officers had proper control over the men, the men sufficient confidence in their officers.

Ald. D. B. Lake asked what regular physical training, if any, was given to members of the force.

Deprecates Cost

Though he did not oppose the suggested investigation, Ald. D. B. Lake pointed out it to be an expensive one. He said that Edmonton's recent crime wave was just as severe in other cities, which were supposed to have high class police forces.

He thought that the great majority of Edmonton's crime was perpetrated by amateurs and expressed a belief that this city had a good average police force. He said the city, in common with the rest of the world, was going through a difficult period, which tended to increase crime. He criticized cheap novels and motion pictures for instilling a wrong viewpoint into the minds of young people.

Ald. J. H. Baker said it was about time the water matter was cleaned up, trying that the investigation proceed immediately. He pointed to the Ballroom damage and said he was convinced "there was a screw loose somewhere" in the police department.

DEATH TOLL

CONTINUED FROM PAGE ONE

was forecast, but municipal authorities did not believe the city could be flooded with less than a 40-inch rise. The river already is over tops and so high that navigation is impossible.

Several suburbs are under water and 3,000 are homeless at Viry Chateau alone.

Water receded from the Belgian lowlands in some localities, but the area along the Scheldt between Antwerp and Termonde continued in the grip of one of its worst floods in years.

Vast areas in western and eastern counties of England were under water today, not at a great depth, but sufficient to interrupt communications and isolate scattered dwellings.

The rivers are greatly swollen, and the mountain streams of Wales have been converted into raging torrents by constant rain, bringing large volumes of water into the lowlands. There was several inches of flood water in parts of Belfast, Northern Ireland.

DWERNYCHUK

CONTINUED FROM PAGE ONE

ted their cases to the jury and while the learned trial judge summed up the evidence and announced his charge to the jury.

While the jury was out a death-like silence prevailed over the crowded benches, terminating only when the knock was heard at the jury-room door, signifying that a verdict had been reached.

While the deliberation of the jury was in progress Dwernychuk sat in the box with a black expression save only the muscular twitching of his fingers.

There was little comment or conversation following the passing of the verdict, the orderlies quickly clearing the court room and the court house of all strangers.

Mrs. Dwernychuk was in the court house and throughout the morning remained in another corridor chatting to friends.

With the conclusion of this records what is believed to be one of the speediest clearing up of a murder in the annals of Canadian criminal jurisprudence.

The five murders were committed on the night of Wednesday, Oct. 23, last. Following a

Says C.N.R. Carried Newsprint At A Loss

OTTAWA, Ont., Nov. 25.—The Canadian National Railway carried newspapers for the use of United States publishers at a rate that was lower than newsprint carried by the same railway for Canadian publishers, contended Alistair Fraser, general counsel of the C.N.R., when appearing before the Board of Railway Commissioners here Monday at the same time.

It cost more to haul that commodity to the United States than the railways received in revenue. Giving figures in support of his argument, Mr. Fraser said that the average revenue per ton mile for newsprint, hauled to United States points from points of origin in Canada, was 8.08 mills while the actual cost was 8.26 mills.

Monday was scheduled for the argument by counsel on the application by newsprint manufacturers and publishers for an

order disallowing the Canadian railways recently published schedule of rates on that commodity. The board some time ago issued an order suspending the operation of the new rates, which, applying to international traffic, would have the effect of increasing the present rates.

Other counsel will be heard by the board before the present hearing concludes.

Will Stage Beauty Show Among Eskis

WINNIPEG, Nov. 25.—Just what feminine pulchritude there may be in the far north, Andrew Brown, of Baker Lake, isolated Chesterfield Island trading post, is going to ascertain.

"To make the winter pass," Brown is staging a beauty contest, among ladies of the Eskimo tribes in his neighborhood. He wrote to a friend here

Two Wrestlers Plunge Through Window; 1 Dies

Associated Press

CHICAGO, Ill., Nov. 25.—Henry Labinski and Alwood Jahmnick were hoisted Friends, often they met in friendly wrestling bouts.

They tumbled about the floor of Jahmnick's room last night, striving for a fall. They suddenly lurched through a window and plunged three stories to the street.

They were still locked in a "struggle" when Labinski was dead; Jahmnick injured, probably fatally.

Already he has secured nine entries from shiny-faced, black-haired girls and he expects many more. A look-alike—scarcely in the Arctic's first prize.

Plan Cancellation Of Wheat Acreage

Associated Press

WASHINGTON, D.C., Nov. 25.—A 20 per cent. reduction in wheat acreage and more "elastic" control by government over grain exchange rates were held up to the senate agriculture committee Monday as additional tools for the farmers' life.

Chairman Lugo of the Federal Farm Board proposed the acreage curtailment in the belief it would give the wheat farmer the benefit of the 42 cents a bushel tariff, but Senator Norris, Republican Nebraska, a member of the committee, said such a plan would amount to a "National calamity" in the event of a crop shortage.

DEMOCRAT ELECTED

WINNIPEG, Nov. 25.—Election of Harry Woodring, Democrat, as governor of Kansas by a majority vote of 316, finally was conceded Monday by his Republican opponent Frank Chief Hauke.

VICTOR'S

Great Radio Achievements

Light better music to all the Dominion

VICTOR'S TRIPLE TRIUMPH

Now, absolutely unlimited enjoyment from one magnificent acoustically engineered cabinet... yours to command! Radio performance which brings to your home all the infinite enjoyment which broadcasting should give... record reproduction surpassing even Victor's tonal specializations of the past... and a thrilling new device enabling you to make your own records—all in the new Victor Radio Home-Recording Electro. The greatest instrument of all!

VICTOR'S NEWEST RADIO

Victor — and Victor alone — can give you the selectivity... the sensitivity... the tone of screen-grid five-circuit micro-synchronous radio. Here, in a choice of two beautiful cabinets, is a new degree of radio satisfaction. Test the surplus vitality of this amazing Victor... hear what it will do... then you, too, will realize that this is the radio progressing far beyond accepted standards — the radio that is really a musical instrument.

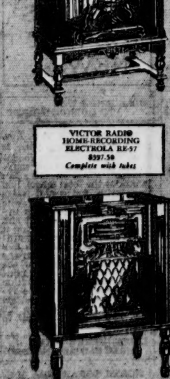

VICTOR RADIO "R-FIFTEEN"

A Victor Radio so inexpensive that none need be satisfied with less than the dependability of true Victor performance. Screen-grid operation... four circuits... new and improved speaker... and the resulting Victor tone — all for \$185, complete with tubes. The cabinet is a gem of delicate artistry... compact... light... easily moved about — it is the "intimate" radio of today — the "personal" musical instrument.

THE NEW Victor Radio HOME-RECORDING Electro

City Council Proposes to Ask for Civic Tax on All Coal Mined in this City

WOULD INSURE AGAINST LOSS OF PROPERTY

Ald. Gibbs, M.L.A., Appointed by Mayor to Interview Gov't.

With a view to recommending persons who have suffered damage to their property through coal mining, the provincial government will be asked to impose a small tax on all coal mined in the province, the city council decided Monday night. Ald. C. L. Gibbs was appointed to approach the government in this regard.

The move was suggested by representatives of the Riverside Property Owners' Association, representing Riverside residents who have been seriously damaged through coal mining.

Ald. Bellamy strongly opposed the suggestion, holding it was not feasible. Mayor Bellamy said it was up to council whether it wished to appoint a delegation to interview the government.

The motion carried and the mayor appointed Ald. Gibbs to interview the provincial government.

Following a report of A. W. Haddon, city engineer, that damage to city property through coal mining would involve \$25,784, the city council Monday night directed that an estimate be made of the damage suffered by private property owners.

COUNCIL BREVITIES

Enforcement of the stop street by-law was urged by Ald. D. K. Knott at a meeting of the city council Monday night. Ald. Knott said that he watched six automobiles pass a certain stop sign Monday afternoon and only four of these came to a full stop.

A charter amendment, regarding the majority required by money by-laws from two thirds to fifty per cent, may be sought by the city council. A suggestion along these lines was thrown out by Mayor J. M. Douglas Monday night.

What was done by the police on Halloween night, what steps were taken to prevent damage to property and what arrests, if any, were made? Ald. Herbert Baker asked a meeting of the city council Monday night.

That the city pay five per cent interest on sums deposited by commercial banks and electric and water meters was a suggestion made by the Federation of Community Leagues at a meeting of the city council Monday night. The matter was referred to the finance committee.

For the purpose of discussing with the city commissioners and the board of governors of the

University of Alberta the board's request for immediate transportation facilities to serve the University, Ald. J. T. Collinson and Ald. R. V. Bellamy were appointed a special committee by the city council Monday night. Chief Justice Horace Harvey, chairman of the board of governors, has intimated that litigation will be the only other alternative if an amicable settlement is not made.

A special meeting of the city council will be held at the call of the mayor to consider possible extensions to the city power plant, as recommended jointly by Professor A. O. Christie of Johns Hopkins University and W. J. Cunningham, power engineer, at a meeting of the city council Monday night. A boiler plant costing \$450,000 is

constructed next year while the total extensions of 1931, 1932 and 1933 will cost more than \$1,600,000.

A grant of \$100 will be made to the Alberta School Trustees' Association towards the cost of holding a convention in this city next February, the city council decided Monday night.

Application of residents living just outside the city limits be included in the by-laws committee by the city council Monday night.

Prior to making a definite decision as to the location of the city's proposed new garbage incinerator, a highly contentious matter, members of the city council Monday night decided to make an inspection of the vari-

ous sites suggested. After the decision as to location is made, it is expected that tenders will be called for the construction of the incinerator.

Financial assistance from the city towards repairing the roof of the Y.M.C.A. building, damaged by Saturday's windstorm, was requested by Roy Sutherland, who was called on by the city council Monday night. The request was referred to the finance committee.

Mr. Sutherland declared that the repairs would cost in the neighborhood of \$2,000 and this expense was borne by ordinary revenue, then the work of the Y.M.C.A. would necessarily be curtailed.

Australian Labor Chief in Edmonton

On his way home after attending the inter-parliamentary conference in London, when he acted as chairman of the Australian Labor party, P. E. Coleman, M.P., representative of the international Labor conference at Geneva, passed through the city Monday night aboard the Canadian National "Continental Limited." He is en route to Vancouver.

Optimistically certain of early relief from the present period of business depression, Mr. Coleman stated that "the League of Nations showed a tendency to Europeanize," but that all countries of the world are vitally interested in pulling one another out of this business slump.
